**Welcome to the Animal Pain Management Center**

The APMC is a veterinary practice devoted to the alleviation of animal pain with the goals of increasing your pet's quality of life *and* longevity. We offer many different management options including advanced oral pain medications, advanced intravenous and epidural (spinal) medications, physical rehabilitation, as well as TCVM acupuncture and herbal therapies.

Please indicate your interest in the following treatment categories – please check the checkbox next to the number that best represents your interest:

- Advanced outpatient pain medications      Not very 1  2  3  4  5  Very interested       Need more info
- Advanced in-hospital pain therapies      Not very 1  2  3  4  5  Very interested       Need more info
- Acupuncture/Trigger point needle therapy      Not very 1  2  3  4  5  Very interested       Need more info
- Herbal Therapy      Not very 1  2  3  4  5  Very interested       Need more info
- Physical Rehabilitation Therapy      Not very 1  2  3  4  5  Very interested       Need more info
- Stem Cell Therapy      Not very 1  2  3  4  5  Very interested       Need more info

Please list the top goals you have for your pet. Be as specific as possible:

1.	
2.	
3.	
4.	
5.	

Many people consider their pets very important family members; some even consider their pet to be their most important life companion. Please check the box next to the number that best represents your feelings about this description:

Disagree 1  2  3  4  5  Strongly agree

## For Referral Patients

I was referred by my regular veterinarian, Dr.

The APMC prefers to operate on a referral basis whenever possible. This allows us to work with your regular veterinarians to achieve the best possible total care for your loved one. Your regular veterinarian, due to their familiarity with your pet, should be best positioned to provide care unrelated to your current concerns.

We will provide the diagnostic and therapeutic options best suited to manage your pet's current problem only. Please contact your regular veterinarian for healthcare unrelated to your pet's current concerns.

I agree to comply with the above policy

Name  Date

## Non-referred Patients

A friend or co-worker suggested I contact you:

I was not referred by anyone. This is a self-referral. If so, how did you learn about our practice?

If you were not referred by your regular veterinarian, did your regular veterinarian decline to refer your pet for treatment? Yes  No

If yes, please explain:

It can often be helpful for us to be able to use our patients' pictures and stories as case studies on our website and in our published information. We avoid using any specific personal information about you or your pet. May we use your pet's picture and case information on our website and/or in our published information? Yes  No
